# GLIDERPOLE®

## EASIER INSTALLATION

Locating grub screws into the top fixing plate is made easy with the new T-bar guide. A simple complimentary tool is now supplied with each Gliderpole order, which perfectly indexes the tapped hole and the grub screw.

An invaluable improvement in the fitting experience, especially when installing with no line of sight.

## HAND DRAWN

The smooth running hand drawn option is available in five styles; Square • Flat • Ø23mm (15/16") • 30mm (1 3/16") • 50mm (2"). All benefit from the new thoughtful detailing of concealed end stops.

## CORDED

The innovative, embedded cording solution is available in three options, Square • Ø30mm (1 3/16") • 50mm (2"). All options allow a single or a twin cord which sit discreetly behind the curtain. A colour coordinated metal cord retainer is supplied as standard, for child safety.

## LENGTH

Gliderpole can be supplied to any length<sup>®</sup> allowing the curtains to travel freely across even the longest systems.

## HEAVY DUTY

Heavy Duty face fixed brackets and improved adjustable brackets have been added to allow easy installation even in challenging situations. Wall brackets have a magnetic cover plate for hidden fixings. Brackets can also be supplied to custom lengths and designs.

## WAVE®

The ubiquitous Wave® heading is accommodated through all Gliderpole options.

## BENT TO SHAPE

Gliderpole is the optimal solution for bends and curves. Precision bending and smooth running gliding systems combine to provide superb functionality.

# GLIDERPOLE®

## EDGE

Gliderpole Edge is a modern, clean cut, return-to-wall concept with a more linear aesthetic.

The unique Edge bracket design gives a structured return to the wall for drapes and incorporates an adjustable return-to-wall hook eye.

Available in Ø30mm (1<sup>3</sup>/<sub>16</sub>" ) hand drawn
